- Admin panel je poseban odeljak sajta namenjen isključivo korisnicima sa Admin privilegijama. Zaštićen je tako da neovlašćeni korisnici ni na jedan način ne mogu da mu pristupe. Panel je podeljen na odeljke: Movies, Movie Categories, User i Slider Management. Za sve je obezbeđen try i catch blok, a na bazi su postavljena ograničenja. Ukoliko se ograničenja baze prekorače, sugestivna poruka će se ispisati na vrhu admin panela tako da Administrator uoči i ispravi grešku.
- Add Movie: Ime može imati maksimalno 17 karaktera. Godina ima 4 cifre bez tačke na kraju. Rating je broj zvezdica koje se prikazuju na sajtu i taj broj može biti od 1 do 5. YouTube Trailer link je link do trejlera koji se deli na dva dela – deo posle i pre znaka jednakosti. Deo posle znaka jednakosti se šalje u bazu, a kada se film prikazuje, link se ponovo spaja u celinu kroz simplePlayer.js skriptu. Zatim se bira kategorija. Ribbon predstavlja bedž “NEW” na filmu – 0 da nema bedž, 1 da ima. NEW ne zavisi od godine izdavanja filma već od trenutka dodavanja na sajt. Kada se popunjavanje završi, kliknuti na dugme.
- Delete Movie: Izlistava sve dostupne filmove. Izabrati film, a zatim kliknuti na dugme.
- Edit Movie: Izabrati film iz padajućeg menija. Zatim LEVO od polja koje želite da editujete obeležiti checkbox i u polje DESNO od checkboxa uneti željenu vrednosti. Parametri su isti kao i za dodavanje filma. Ovo je dobar način da se isprave eventualne greške pri dodavanju filma.
- Add Category: Upisati ime željene kategorije (žanra) filma i kliknuti dugme. Žanr će se automatski dodati u “Genres” dropdown na glavnom meniju. Takođe će kategorija koja je upisana postati dostupna kada se budu dodavali filmovi.
- Delete Category: Izabrati željenu kategoriju za brisanje i kliknuti dugme. Biće obrisani žanr iz “Genres” dropdown menija. Ukoliko postoje filmovi koji pripadaju ovoj kategoriji, brisanje neće biti moguće.
- Edit User: Izabrati željene parametre i kliknuti dugme. Logika popunjavanja je ista kao za editovanje filma.
- Delete User: Izabrati željenog korisnika za brisanje i kliknuti dugme.
- Add Slider: Popuniti sve parametre i kliknuti na dugme. Slider će biti dodat na “Home” stranici.
- Delete Slider: Izabrati željeni slider za brisanje i kliknuti dugme.

Ukoliko korisnik u dropdownu "Genres" izabere neku od kategorija (osim opcije "All", ona izlistava sve filmove nezavisno od kategorije), automatski će se generisati nova stranica koja će dinamički ispisati sve filmove sa tom kategorijom, zatim će dinamički ispisati i "breadcrumbs" za baš tu izabranu kategoriju.

Ako iz, recimo, “Crime” kategorije izaberete film “The Godfather”, stranica će generisati film koji ste odabrali kao i “breadcrumbs” koji vodi nazad do kategorije u kojoj se film nalazi tako da ako slučajno pristupite filmu koji ne želite da gledate, lako možete da se vratite na kategoriju.
